## Our Company

Welcome you in the name of Golden-Glob Trans Kft. Let me present our company's activities in a few words.

Our company was established in 1998 as the name of Andem-Ex 98 Kft. and in 2006 Golden-Glob Trans Kft. was created due to expansion and modernization. We are a hungarian –owned company in 100%. Our main activity is the domestic and international transport and forwarding. Our own vehicle fleet contains now: 18 pieces of trucks (tent truck, truck trailer, MAN brand) which are 120 m<sup>3</sup> and can carry 38-40 pallet, and their carrying capacity is 4,5-12 ton. Our main profile is: delivering light weight, but large volume products because of the car's ability (special platform size: 2,55 m wideness, 3-3,2 m height, 15,4-16 m length).

The vast majority of our activities are served in the European Union.

### Our lower cost trucks are perfect for deliver this products:

- insulation materials
- plastic products
- PVC pipes
- aluminium tubes
- window profiles
- foam blocks
- polyurethane products
- furniture frieze
- cases, storage container etc.

Our own trucks are equipped with tracking and GPS, they are responsible for running supervision. Some of these are craned, has roll-up tarpaulin and has a full of stile. Our system is based on common will, we are making an effort to human-like solution for our partners.

Outside our own vehicles are several subcontractors available, they have different vehicles, thus we have the opportunity to transport other complete and part loads, even from 10 kg to 24 ton. We also provide express service. Besides we have more contractes subcontractors, whose cars are employed exclusively by our company.

We have an established connection system about the oversized shipments. If you require, we can take a shipment insurance. Over the years managed to develop a stable connection with one of the market leader insurance company. The most important aspect is our clients expect in our business policy. To this end we modernize our technical conditions and our vehicles constantly. We grant the continuous professional trainings for our colleagues. Our activities are provided in Aszód and Abádszalók, where we have a logistic office.

Our colleagues have several years international experience and speak English and German. We have 13000 m2+ 2000 m2 sized yard in the agglomeration of Budapest, in Aszód, where we established an industrial facility for our vehicles (servicing, fuelling, parking). On our yard was built a new hall for storage, which is 300m2. Moreover we provide a pre-loading option for our clients to eliminate warehouse shortage. A MOT base and a repair shop work here as well in accordance with European Union standards and an adult education center, where we organize driver's success-oriented GKI exam. We run a private petrol filling station. Our finance department is also located in Aszód, in a newly established office building, where the billing and accounting tasks are provided by correspondently qualified colleagues.

Hopefully our company presentation arouse your interest and we can welcome you among our clients. The most important thing is the statisfaction of our clients. Our goal is to complet the orders in high quality and in attractive price, constantly aligned to market's needs and expectations.
